Before we start

Your church signs a short commitment:

- Your minister and elders agree in writing to the changes the work requires.
- One named point leader, and a core group of at least a handful of committed members.
- A baseline measure at the start, and the same measure every quarter.
- Open reporting to CoMission — and to your sponsor, if you have one.

If your church cannot pay: any tier can be sponsored by a church or donor who can, and your church's share is set for its situation.
